

GEN. PERSHING AND HIS STAFF ARRIVE IN ENGLAND

LAND TODAY AFTER QUIET SEA VOYAGE

AMERICAN MILITARY PARTY RECEIVES ENTHUSIASTIC WELCOME UPON ITS ARRIVAL IN BRITAIN.

ARDUOUS TASK AHEAD

Pershing Will Be Called Upon to Command Ever Increasing Expeditionary Force on the Front in France.

[BY ASSOCIATED PRESS] London, June 8.—Major General J. J. Pershing and his party arrived early this morning at a port in Great Britain. The American general and his party were received by the officers of the port, the general commanding the district and the mayor. They were escorted by a band and guard of honor.

General Pershing arrived in London this afternoon. He was welcomed by Walter Hume, Lord Derby, secretary of state for war, Viscount French, commanding the home forces, and other officers, including Lord Blyth, who will be attached to General Pershing's staff during his stay in England.

Destroyers Escort Ship, a British Port, June 8.—Major General J. J. Pershing and his staff arrived here this morning after an uneventful trip. All members of his party were in good health and spirits. Their ship was escorted into port by a British destroyer.

A hearty welcome was extended to the Americans by official representatives of the admiralty, the war office and the municipal authorities. The war office has assigned a brigadier general of the British army as aid to General Pershing. He took up his duties with the commander in chief as soon as the latter reached here.

The formal welcome of the Americans on the landing stage was a stirring scene. A guard of honor composed of royal Welsh Fusiliers was drawn up at the landing with a regimental band. When General Pershing had been introduced to the military officials in command of the port, he inspected the guard of honor while the band played the Star Spangled Banner.

Statement to A. P. General Pershing said to the Associated Press representative: "The trip has been delightful, particularly the latter stages, when we were escorted through the danger zone by our own destroyers."

"Speaking for myself and my staff, we are glad to be standard bearers for America in this great war for civilization. The opportunity of landing at a British port and the welcome we received are very significant and deeply appreciated. We expect in the course of our stay to be playing our part in a very big part of the western front."

General Pershing and his staff proceeded to London. General Pershing was accompanied by the captain and the crew for their courtesies during the voyage.

The British delegation which welcomed the Pershing party up to the deck of the liner consisted of Rear Admiral Stilleman and Lieutenant General Tipican. The ship docked at nine o'clock. After the band played the American national anthem, it rendered "God Save the King," all present standing at salute throughout.

Busy Studying French. The voyage was a quiet one. The time was devoted by General Pershing and his staff to hard work with close concentration on the study of French. At the officers' trip there was a concert at which General Pershing made an address. There was great enthusiasm on board when three American destroyers came up to act as a port.

Large Task Ahead. Paris, June 8.—General Pershing's task in France was described as a most arduous one by Colonel Fabry, a staff officer with the representative of the Petit Parisien.

Colonel Fabry said: "It is not an expeditionary corps that will be sent from the United States, but a veritable army which will be increasingly swelled by fresh contingents, and it is destined to occupy an ever increasing front."

An additional American flotilla of destroyers and patrol boats to co-operate with the French forces in the English Channel and Atlantic is being ordered, according to the Marine. The paper says naval bases have been prepared to accommodate American ships.

Aviators Land. Washington, June 8.—American aviators from the navy flying corps have arrived safely in France for any duty they may present itself according to a statement issued today by Secretary Daniels. They are the first of the American fighting forces to reach France.

SPY BILL IS PASSED MINUS CENSORSHIP

Washington, D. C., June 8.—The conference report of the administration espionage bill, with its export embargo provision and drastic additions to existing laws against spying, was passed by the house Thursday, 58 to 22.

URGES ALL AUTOISTS OBEY ROAD RULES IN EVERY LITTLE PHASE LARGER WHEAT CROP FORECAST FOR YEAR; IMPROVEMENT NOTED

City Attorney Lange Expostulates Necessity of Close Observance of Law for General Safety. "We do not mean to be unreasonable nor antagonistic to owners of automobiles, but we desire to have every car owner and driver observe the rules of the road as a precaution for the safety of the public generally and for his own safety." City Attorney Charles H. Lange said this morning, as he urged the observance of city officials and the police department.

His statement was prompted by numerous inquiries from automobile drivers regarding various phases of driving and operating cars and also because there has been considerable criticism against the general wholesale rounding up of tail light ordinance violators.

No Light When Still. Mr. Lange was particularly anxious to relay to the auto-driving public the fact that it is not necessary for a machine to be standing still, parked at the curb. The state law and the city ordinances contain nothing relative to keeping their front or rear lights lit when their machine is standing still.

He said, "I noticed last night that almost every car that I saw with its lights on, was parked at the curb. This is a needless expense to owners, and as there is neither ordinance nor law requiring them to be on, it is safe in turning off their lights when they park their machines at night."

Light as Precaution. "In my own car, however, if I had a machine, and parked it downtown, rear toward the curb, I would keep my tail light on to warn rigs and drivers to be careful. If I drew up to a curb in the residential district on less lighted streets, I would keep my lights on to warn rigs and drivers. I would really not be compelled to do so by law, and I would be guilty of no violation if I did not. Nevertheless it might keep somebody from being run over and illuminate the points contained in the city automobile ordinance concerning lack of lighting also pertain to the too bright headlights, and proper use of them."

As Municipal Judge H. L. Maxwell agrees with the city's legal "light" on this point, it is very evident that it behooves auto drivers to take particular attention to their front lights and tone them down if they are excessively bright.

Three Pay Fines. Dr. George Little and George Cullen appeared in municipal court today and were fined for operating a garage throughout the evening. Mr. Cullen was a "Duty Day" selective draft poll official.

M. E. Fitzgerald was one of those identified by Hull's letter. He paid his fine this morning. The remaining four men whose warrants were issued this morning were Roy Newman, R. F. D. No. 8, Janesville; M. C. Finley, R. F. D. No. 6, Janesville, and Theodore Miller of this city.

[BY ASSOCIATED PRESS] Washington, June 8.—The prospective wheat crop of the United States this year was forecasted today by the department of agriculture at 650,000,000 bushels. Combining a revised estimate of a badly damaged winter wheat crop and the first estimate of the new spring wheat crop based on June 1 conditions, that compares with 640,000,000 bushels harvested last year, and 600,000,000 bushels the average crop for 1911-16.

Conditions of various crops on June 1, was winter wheat 70.9 of normal; spring wheat, 81.8; all wheat, 78.6; oats, 88.3; barley, 89.3; rye, 84.3; hay, 86.1; apples, 73.9; peaches, 60.5.

The increased spring wheat area planted in 1916,939,000 and the good start of this crop under excellent growing conditions indicate a production of 232,000,000 bushels compared with 158,142,000 bushels last year, 351,857,000 bushels in 1915, and 571,000 bushels the average for the previous five years.

BOOST ELECTRIC CO. ASSESSMENT \$24,000

Water Power Holdings Now Have Tax Value of \$600,000.—Increase at Beloit Also.

An increased valuation of \$24,000 was tacked on the Janesville Electric company's water power assessed valuation this morning by the board of assessors of the various cities and towns in which the utility corporation has holdings in a meeting at the city hall. The tax on the water power assessed valuation of \$600,000. The previous one was \$476,000.

City Assessor Frank L. Smith was chairman of the meeting and C. W. McCarthy of the town of Porter, secretary. P. H. Korst represents the electric company's interests. He and James C. Taylor, assessor of Janesville, discussed the points in dispute, but each was finally amicably settled.

Of the nine assessors present their ballots when inspected showed an individual opinion of the holding as being worth from \$60,000 below the new valuation to \$30,000 above it. One assessor voted for a reduction to \$340,000, three voted for \$500,000, two for the old valuation, \$476,000, and one each for \$535,000, \$527,000 and \$530,000.

After much deliberation the \$500,000 figure was determined as just for a four year basis. This means the valuation will not be any lower with in the next four years, but that it may be increased should the assessors find reason to do so.

The water power plants under consideration, all owned by the local corporation, are at Indian Ford, Fulton and the two here on the Fourth avenue and one in Monterey.

At Beloit yesterday the assessed valuation of the Beloit Water, Gas and Electric company was increased from \$800,000 to \$830,000 by the district board and the assessors from the adjoining townships which the utilities concern serves.

JANESVILLE BOYS JOIN SIGNAL CORPS

Frank Sutherland and Fergus Mead Enlist in Signal Reserve Corps at Beloit.

Two more Janesville boys have joined the signal corps that is being organized at Beloit college under the direction of Prof. C. A. Culver, Frank Sutherland and Fergus Mead, having successfully passed the examinations and tests on Thursday and have been sworn into service. This is the same company that Glenn McArthur and Maurice Weirich had previous to being ordered out for drills about July 1, probably at Ft. Leavenworth.

BIG INCREASE IN NUMBER OF SMALL LOAN SUBSCRIBERS

Jump in Fifty and Hundred Dollar Subscriptions Indicates People as a Whole Are Taking It Up.

Janesville's share\$400,000
Total subscribed to date\$153,430
Gain over yesterday\$,930

About twice as many subscriptions to the Liberty Loan were received yesterday as had been taken on any previous day of the campaign to raise Janesville's share of \$400,000. That the published increase over the last report is not proportionately greater has been encouraging to the distribution committee workers for it indicates that the great bulk of the people are coming to the fore with small contributions.

In addition to the names listed below, and adding a considerable sum to yesterday's totals, are the subscriptions of a large number of people who were secured by some of the committee in yesterday's drive. These when listed will raise the total for the day nearly thirty-five hundred dollars, subscribed largely in small amounts. The twelve men who have volunteered their services to canvass the business districts, spent most of the day yesterday in their work, with the prospect of securing a large number of subscribers in the residential districts. This afternoon a general women's meeting was called at the library to discuss the best means for taking concerted action in boosting the loan locally.

It is the purpose of the distribution committee to leave no stone unturned in putting the vital necessity of this loan squarely before the people, and with this in mind the various bodies are arranging to see every citizen of Janesville this afternoon.

Additional Subscribers. Belle R. Rexford, Sarah E. Scofield, Mrs. A. W. Horwood, Thos. H. Howe, M. P. Rindge, Le Fisher, J. A. Reasigie, Jack Stack, Mary Folds, Geo. S. Woodruff, Mrs. J. G. [BY ASSOCIATED PRESS] London, June 8.—The British losses in yesterday's attack in Belgium were light, according to official announcements issued here today. The statement said the battle became a gauge of the ability of the Germans to stop the British advance under conditions as favorable as an army can ever have for a tactical advantage of ground and preparation and with a knowledge that an attack was impending.

The British are continuing vigorously their aerial operations over Belgium, and have put three German machines out of action near Dixmude.

Ostend Base Crippled. A series of photographic plates of the bombardment of Ostend which have arrived in London, record a remarkable example of the development of photographic observation and of the accuracy of the British gunnery. The plates show in undeniable facts that the British bombardment of Ostend last Tuesday was the most successful thing of its kind yet achieved. The bombardment will be crippled as a useful base for weeks, if not permanently.

Many Prisoners Taken. British Headquarters in France, by a British Commandant of the Associated Press, June 8.—The number of prisoners reaching the collecting station since the beginning yesterday of the new British drive in Belgium has now reached more than 6,000. Many more prisoners are coming in.

No estimate of the number of guns captured is possible, although it is known several German batteries were taken intact. Prisoners say scores of German guns were destroyed during the bombardment. The night passed quietly by soldiers on the front, all conquered territory being held. The German losses in their counter attacks were terrible. The full depth of the British attack was 5,000 yards. Three counter attacks by Germans, which were not delivered in great force, were broken up last night.

Near St. Quentin. Paris, June 8.—Heavy fighting continued throughout the night below St. Quentin, the war office announces. German infantry attacks between St. Quentin and La Fere were checked by the British.

French positions were bombarded with special violence before infantry attacks. Severe encounters occurred on other parts of the front, but the Austrians reinforced.

Udine, Italy, June 8.—A semi-official announcement says Austria has made a formal proclamation of forces of troops from the Russian front. The statement asserts the Italians are now confronted by an estimated two-thirds of the entire Austrian army.

Notice of the funeral will be made later.

Mrs. Stoddard is survived by five daughters, Gertrude, of Chicago, Kathryn, of Janesville, Elizabeth of Wausau, Julia Belle of Fond du Lac, and Ida May of Washington, D. C. In addition one brother, Parker Smith, of Chicago, and a sister, Mrs. Ellen Everett of the same place, mourn her loss.

The death of Mrs. William B. Stoddard, who died last night at about half past one, Janesville has lost a woman who for over half a century had been prominent in its church and social life. Mrs. Stoddard had been for a little over a day from heart trouble; the end came quietly and without suffering. Since moving to this city in 1914, she had made her home in a devoted and untiring energy to advancing the sphere of the church and to carrying its mercies to those in need. She was born October 14, 1841, in Boone, Illinois, but at an early age came to Janesville. Her husband passed away in 1911.

Mrs. Stoddard is survived by five daughters, Gertrude, of Chicago, Kathryn, of Janesville, Elizabeth of Wausau, Julia Belle of Fond du Lac, and Ida May of Washington, D. C. In addition one brother, Parker Smith, of Chicago, and a sister, Mrs. Ellen Everett of the same place, mourn her loss.

2 TO RESIGN AFTER SHIP CONTROVERSY

Washington, June 8.—The disagreement between Major General Goethals, general manager of emergency ship building program and his assistant, Clark, his assistant, originators of the wooden ship plan, would offer their resignation. Statements issued last night by Justice and Clark virtually charged General Goethals with blocking the building of the wooden ships.

Washington, June 8.—General Goethals, general manager of emergency ship building program, today dismissed F. A. Justice of Boston, assistant general manager and F. H. Clark of New York, the two engineers who originated the wooden ship plan.

The dismissal of Justice and Clark today followed their action of last night in issuing a statement virtually charging General Goethals with holding up the ship building program in nation's emergency.

HOLD GAINS FROM DRIVE IN BELGIUM

GERMAN LINE PENETRATED FOR DISTANCE OF THREE MILES.—SIX THOUSAND PRISONERS REPORTED.

BRITISH LOSS IS LIGHT

Aerial Operations Over Belgium Are Continued With Vigor.—Naval Base at Ostend Out of Commission.

[BY ASSOCIATED PRESS] So far the Germans have reacted hesitatingly before the tremendous thrust the British delivered into the long held German line in Belgium. General Heigl's troops have held all the ground they won, which reached at points a depth of nearly three miles.

The force of the British drive is only in part indicated by the report of more than 6,000 prisoners taken.

More Germans raked in by the British not are being sent forward, and there yet remain to be enumerated the many guns taken. While the counter attacks so far delivered have not been in great force and have been readily repulsed with extremely heavy losses, the rush of German reserves into the fray cannot be much longer delayed and much fiercer fighting is to be expected before attack can be pressed.

German Forces Withdrawn. Berlin, June 8.—The German forces on the Belgian front have withdrawn from the salient protruding westward to a prepared position between the canal bend north of Elend and the Doleny, some two kilometers west of Warneton, says the official statement issued today by German army headquarters.

WOUNDED THREE TIMES HE SEEKS REVENGE

Here is the first of a series of stories, gathered by the Associated Press, dealing with the activities of Uncle Sam's sons at the front.

London, June 8.—Introducing Mr. Harry McMichael of Augusta, Ga. Mac has been strangled through the throat, but he hasn't taken the count yet and all he wants is another shot at a spiked helmet.

Mac learned the game in the Second Canadian Cavalry. He joined the Fifteenth Canadian battalion in June, 1915. A machine gun bullet hit his leg in the fall of that year. Back from the hospital, a shell fragment nicked his brow as he went "over the top" in a charge.

Back once more from "blighty" Mac took a stretch and a yawn in view of the German trenches and a hail of bullets, with the activities of the south is just getting on his feet again. He wants to join the Americans when they arrive—and his car is eager for the welcome sound of "Dixie."

Summary of War News

Van numbers of German troops are being rushed forward by Field Marshal von Hindenburg in an effort to stem the British thrust which has swept over the heights dominating the Lulle plain and threatens to sweep the Tontons from the great industrial section of northern France.

As every succeeding clash between the mighty armies on the western front has dwarfed the one which preceded it, so the initial phase of the battle of Messines promises to be merely a prelude to the struggle which is to come. The British thrust follows almost on the heels of the triumphant announcement by the German emperor that the allies' offensive in the west had been definitely checked, bearing out reports that the Germans had underestimated the power and resources of their foes, and that they would withstand a terrific blow which fell upon them. From the captured heights the British guns today are sending their message of defiance across a low level plain scarcely more than five miles in breadth which separates them from the industrial capital of northern France.

Lille is chief of a little group of three cities in which prior to the war centered France's greatest textile industries. It formerly had a population of 190,000, and its two sister cities, Roubaix and Tourcoing, with homes of about an equal number.

DRY AMENDMENTS TO WAR TAX BILL ARE SPONSORED BY GORE

[BY ASSOCIATED PRESS] Washington, June 8.—A number of prohibition amendments to the war tax bill were introduced today in the senate by Senator Gore. One proposed to increase the present retail internal revenue license to five thousand a year, making it prohibitory.

Another amendment would authorize the president to commandeer distilled spirits now in bond for manufacture of munitions and for military and hospital purposes. Another would tax distilled spirits at more than five years \$5 a gallon, with an extra tax of \$1 for each additional year. Another would put the tax upon grain cereals and distilled spirits at \$60 a hundred pounds.

Taxes on beers and other malt liquors also would be increased under another amendment by \$1.25 a barrel upon products containing less than 21 1/2 per cent alcohol, and \$5 a barrel in excess, a rate regarded prohibitory.

Senator Harding of Ohio, republican, declared in the senate today that lack of public confidence was retarding the passage of the Liberty Loan, and in the interest of unity senators were withholding information which "might call" for investigations and shake the confidence of the American people in the conduct of the war.

REPORT SINKING OF AMERICAN STEAMER

[BY ASSOCIATED PRESS] Paris, June 8.—The torpedoing of a big American steamer and the shelling and sinking by a submarine of the small boats in which the steamer's crew were escaping, is reported by the service. The French navy is said to be sailing ship Jeanne Cordonnier. The French ship was torpedoed in the English channel on May 31, and the crew reached home on the last night. They declare they witnessed the destruction of the American ship after their vessel had been sunk.

DENY PASSPORTS TO ITALIAN SOCIALISTS

[BY ASSOCIATED PRESS] Rome, June 8.—The minister of the interior in Italy has confirmed the report that no passports will be given to Italian socialists who wish to participate in the conference at Stockholm. The minister considers the conference a maneuver of the central powers, aided by Russian extremists.

SURPRISED BY FORTY FRIENDS ON BIRTHDAY ANNIVERSARY

On Thursday evening A. J. Rooney was pleasantly surprised when about forty guests came to remind him of his birthday. Cards were played during the evening. The prizes were awarded to Miss Esther Feuber and Juliette Teut. Miss Helen Vogel and Charles McKewan won the booby prizes, after which a delightful supper was served. The guests departed with a lot of happy memories and many more happy birthdays.

CAPITAL OF SALVADOR IS DESTROYED

SAN SALVADOR, CITY OF 60,000 POPULATION, REPORTED TO HAVE BEEN WIPE OUT BY VOLCANIC ERUPTION.

CITY LIES IN RUINS

Everything Within a Radius of Thirty Miles of Central American City Destroyed, Say Meagre Advisers.

[BY ASSOCIATED PRESS] San Juan del Sur, Nicaragua, June 8.—San Salvador, capital of the republic of Salvador, with a population of more than 60,000, has been totally destroyed, according to a dispatch from San Miguel Salto. No details of the manner in which the city was destroyed have been received, but it undoubtedly was the result of an earthquake or volcanic eruption.

A dispatch from Tegucigalpa, Honduras, says that in addition to the wiping out of Honduras, the towns of Quetzaltenango, Napa, Fuchicho, Raiten, Armenia, and Mejicanos were destroyed. Mejicanos was a suburb of San Salvador. At 8:50 o'clock this morning there still was no communication between San Salvador and Tegucigalpa.

City is in Ruins. An operator who reached the edge of the destroyed zone reported at 9:20 this morning that San Salvador was in ruins and everything within a radius of thirty miles had been destroyed by the earthquake.

The town of Santa Tecla also has been destroyed, according to this report. Residents of San Salvador are camping in the streets and parks. The disaster is supposed to have been caused by the eruption of the volcano of San Salvador, at the foot of which the city is situated.

San Salvador is about three miles southeast of the volcano of San Salvador, and is the seat of government of the smallest but most densely populated of the republics of Central America.

REPORT LAST NIGHT WASHINGTON, JUNE 8.—Dispatches from American Mission Long at San Salvador sent at nine o'clock, while the volcano of San Salvador was erupting, said that part of the city had been destroyed by fire, but it was under control. Great damage was done.

The dispatch said that about 6:25 p. m. yesterday severe earth shocks began and continued until 8:45 with varying intensity.

Volcano Becomes Active

At about 8:45 the volcano at San Salvador began to belch forth fire and smoke, appearing on the side toward Metzapetque. There was later one very severe shock, but the tremors of the earth continued with decreasing violence. At the time the volcano was erupting, fire or earthquake might have wrought greater damage after the sending of the report.

WITHINGTON ENLISTS IN RED CROSS UNIT

[SPECIAL TO THE GAZETTE.] Madison, Wis., June 8.—Wisconsin will not have one of their last year's football coaching staff this fall according to the present information. Dr. Paul Withington, head coach last fall, has written President Van Hise that he has enlisted in a unit of the Red Cross service in France in the near future. He will be connected with the Boston hospital unit.

With this resignation of the head coach, the last member of the staff has severed connections with the Badger school. Dick King, backfield coach, has departed for South America, and will not be able to return. Arlie Mucks, his assistant, is at present farming in the west and cannot return by fall. Captain Paul Meyers of last year's team is at Fort Sheridan.

Don't Mutilate Your Coins.
It is a crime to mutilate or deface gold or silver coins, and if you were to ask a jeweler even to punch a hole in a \$5 gold piece so that you could carry it on your watch chain you probably would be told to go about your business. Yet, strangely enough, if you were to mutilate a gold piece until it had lost all resemblance to a coin you would not be punished. What the government aims at is to prevent the impairment of the value of its gold and silver tokens by plugging, drilling, "sweating" and other processes. It is unlawful to cut even a monogram on either a gold or silver coin.—New York Mail.

ANNOUNCE STUDENTS WHO GET DIPLOMAS

One Hundred and Nine Rural School Pupils Will Be Entitled to Enter County High Schools

One hundred and nine pupils of Rock county rural schools will receive diplomas at the graduating exercises which will be held Tuesday, June 19 at the high school building in this city. The list of names of those who passed the recent examinations has been given out by County Superintendent O. D. Antisdel. In addition to these several who were ill at the time the examinations were given, will write next week and their names may be added to the list. Sixty one others who have passed the examinations may take examinations next fall which will allow them to enter the high schools of the county.

VOICE OF THE PEOPLE

To the man who adopted the United States as his country:

Do you remember when you left the old home to come to America? That's what you called it. You said, "I'm going to America." You had a feeling you were doing something big; that you were throwing off something that interfered with your ideas of freedom, and you were going to a land where you could be heard—where your weak voice could have a say in affairs. Anyway something said to you, "You are getting away from something I don't like and am going to a country that gives a man a better chance." That's true, isn't it? And when you got here you were welcomed as a despised one because of your nationality. Nobody boycotted you because you were a foreigner. And you have had some of the good luck and some of the bad, but you had a fair chance, didn't you? Then the time came when you became a citizen and you promised to be loyal to the United States and uphold its constitution and the one best test was the stars and stripes. Do you remember how good you felt that day? Sure you do. You felt so good you told your pals about it. "I'm an American citizen now!" You were a proud man that day and justly so. Everything was fine then—business good, country at peace with the world, and if anyone tried to offend the United States would go to Europe to fight for her liberty you would have laughed. Such a thing was unthinkable. Now how do you feel about the United States? Do you still feel that way? You are still strong for the United States, of course. But have you thought what return you are going to give Uncle Sam for his hospitality when you were a green? Do you still stuff about "a day's work for a day's pay" balance accounts? Is all right; that's an easy way to get rid of the subject. But think a little deeper. Are you showing your appreciation of the kindness extended to you by the United States—the country you picked out as your home? Have you bought a Liberty Bond? Have you taken advantage of the privilege that is offered you? Had you known when you landed in the United States that one day you could be of assistance financially to this country, you would have said, "Sure, I will lend the United States my money." Of course you would. Well, no matter where you were born, don't overlook the fact that the United States has been good to you. We are all having a war, and our hearts for the place where we were born. That's as it should be. But the old country should be the second choice when you hold the United States. Think of the United States. Whether you disagree with the president in politics or not, stick for him. Find fault when the danger is over. If you have not subscribed for a Liberty Bond, do so. Take the little feather of your conscience and when you walk down town look the Liberty Loan posters square in the face. Stop in your bank. You will get a better reception from him when you say "Liberty Loan—make it \$500," than if you left \$5,000 on deposit. He's a patriot, he's done his bit. Be true to the country you picked out as the best one in the world.

FEDERATED MISSION SOCIETIES GATHER

Interacting Program Is Carried Out at Annual Meeting Held Thursday at Presbyterian Church.

An unusually interesting program and a feeling of hearty co-operation marked the meeting of the missionary federation held at the Presbyterian church yesterday afternoon. Election of officers was held, resulting in the choice of Mrs. E. Ewing for president, Mrs. William Welsh for vice president, and Mrs. C. F. Perry for secretary and treasurer. The report of the secretary of the society, Mrs. Malmberg, showed that seven churches represented by eleven societies belonged to the organization and that there was a surplus of \$7.65 in the treasury.

The meeting for yesterday was planned for a mutual exchange of ideas and the best things of the year's work in the different societies were offered at this yearly gathering.

The "Story of David" was told in a sweet and tender way, as a devotional service, by Miss M. E. Backman, of the First Baptist church. She explained in a beautiful, simple fashion how the songs of David came to be written.

Talk along the line of temperance work, giving a plea for the organization of an auxiliary to help the local W. C. T. U. in their efforts to make Janesville dry, was made by Miss Granger. It was entitled "Called to the Home." The missionary society of the M. E. church was represented by Miss Grifley, who explained the work in the M. E. church. It is a social settlement for religious, educational, medical and social work among large numbers of Jews. There are thirteen residents and besides the kindergarten, industrial and sewing classes, there are about 7,000 cases treated yearly by the nurses and physicians attached to the dispensary. A sweet and touching prayer, "A Prayer," was given by Mrs. L. L. Wilcox, with Mrs. H. at the piano.

A summary of the missionary work done in the national and state association of the Christian church, was given by Mrs. George Allen, as well as a brief report of the plans of the local denomination. H. E. Fletcher gave a brief review of some of the encouraging things noted in the Congregational society. She mentioned especially the fine spirit of cooperation and the splendid prayers on the programs offered to the members.

The English Lutheran society was represented by Mrs. A. Malmberg, who gave an appropriate reading, "The Lord's Prayer." A debate was reproduced by Miss Stoddard and Mrs. Pierson from a program given at a Baptist church in Cuba, Porto Rico and the Philippines, where education, health and morality was enforced, was always justified in taking forcible possession of a non-Christian country by force. The affirmative was taken by Mrs. Pierson, who argued that the conditions existing in the twenty-one countries included in this group, suggested that the things could be improved by missionary work.

A quarter consisting of Mrs. J. R. Nichols, Mrs. George, St. Clair, Mrs. William Welsh and Mrs. George Allen, gave a song, composed by a missionary entitled, "In a Chinese Cart I Sit," which was amusing and realistic. Mrs. Richards of the M. E. church gave a poster talk of some of the work done in their society to promote interest in the work. She suggested that the leaders in planning the programs keep right up to the most important things and plan the most important things to be considered at each meeting.

The meeting closed by the singing of America by those present.

PLAN A RECEPTION TO REV. TRUESDALE

"Get Acquainted" Meeting Will Be Held This Evening at United Brethren Church.

A "get acquainted" meeting is to be held in the United Brethren church this evening. The purpose of the meeting is to assist the new pastor, Rev. J. Hart Truesdale, in getting acquainted with the members and friends of the church, also to propose some plans for future work.

A picnic supper is announced for 8:30. This will be followed by a program for the six weeks' "Increase" campaign will be presented. All the members are urged to make an effort to be present. Friends are invited. A good time is assured.

OBITUARY.

Charles Trileoff.

Funeral services for the late Charles Trileoff, who was drowned Tuesday night in the river, were held this afternoon at half past one at the home, 208 North Chatham street, and at two o'clock from St. Paul's church. The reverend S. W. Fuch officiated. Interment was in Oak Hill cemetery. The pallbearers were: Fred and Ed. Richman, Edman, Charles Wolfe, Louis Kremer, Frank Zierath and Fred Vogel. Mrs. Kaempfein, Mrs. Hull, Mr. Meas and Mr. Strampe were the singers at the funeral.

Mrs. Mary McKewan. As a relief from her patient suffering, Mrs. Mary McKewan was called by death at her home, 227 W. 1st, about 11 o'clock last night at seventy-four years of age.

Mrs. McKewan's maiden name was Mary Riley. She was born in County Cavan, Ireland, in 1838, and came to this country when a small girl. She lived in New York, where she was married to Patrick McKewan. In 1861 they came to Rock county, where she spent the remainder of her life. She was a faithful mother to her eight children, three of whom have been called by death. Her husband preceded her in death thirty-five years ago.

When death called her, Janesville lost one of its most devoted Christian women. She was continually preparing herself for the time when she would be called. She was a woman of loving character always, with a tender hand.

Her loss is mourned by four sons, John of the town of Harmony, Frank, Charles, and James and by one daughter, Nellie of this city, twelve grandchildren and two great grandchildren.

Funeral services will be held Monday at nine o'clock from St. Mary's church. Interment will be in Mount Olive cemetery.

Meeting of the Summer Club of Housewives, Economics Thursday, June 14, at Orfordville. Dinner at 2:30 served in new Odd Fellows' Hall. By order of secretary.

Thursday's Markets. Chicago, June 8.—Almost no shipping orders and bearish views of packers forced yesterday's average prices to lowest point in over a week and 80c below May 14, highest day on record.

More underweight hogs are coming to market and the price range is wider. Light mixed cost \$15.82 yesterday, while other grades of heavier butchers cost \$15.66@15.80.

Another 25c break in spring lambs carried over lots to \$16.50, or \$4.33 lower than two weeks ago. Best aged lamb lambs declined \$2.75 during same period, selling yesterday at \$14.50.

Cattle Market Weakens. Beef steer trade slow, with Wednesday's advance mostly lost. Best on market \$13.00. Still steers made \$12.00@12.50, being steady. Butcher stock slow to 10c lower and veal calves strong to 25c higher. Quotations:

Choice to fancy steers \$12.90@13.75; poor to good steers 10.15@12.50; Yearlings, fair to fancy 10.25@13.50; Fat cows and heifers 7.50@12.25; Canning cows and cutters 6.50@7.75; Native bulls and steers 7.00@11.50; Feeding cattle, 600@1,100 lbs. 8.50@10.50; Poor to fancy veal calves 11.25@14.35.

Late Hog Trade Weak. Lack of competition caused a 5c to 10c break in hog values yesterday after a steady start. Extra fancy heavy made \$15 early, but at the finish \$15.90 was top. About \$1.50 was maintained in the price of packers talking lower for today. Quotations:

Bulk of sales \$13.50@15.85; Heavy butchers and ship 15.75@16.00; Light butchers, 150@230 lbs. 15.55@15.90; Light bacon, 145@190 lbs. 15.00@15.75; Heavy packing, 200@400 lbs. 15.40@15.65; Mixed packing, 200@250 lbs. 15.25@15.55; Rough, heavy packing 15.15@15.35; Poor to best pigs, 60@125 lbs. 11.25@14.35; Stags 80 lbs. dockage per head 15.90@16.40.

Further Sheep Declines. Sheep and lambs steady to 25c lower, only best dry-dyed shorn lambs holding steady. Quotations below, excepting springers, for shorn stock:

Lamb, common to fancy \$11.00@14.50; Lamb, poor to good culls 9.00@10.00; Yearlings, poor to best 9.00@12.75; Wethers, poor to best 7.00@10.50; Wethers, common to choice 7.00@8.00; Spring lambs 12.00@16.50.

"PASS IT ON" MOTTO OF ROCK'S CANNING CLUBS

[SPECIAL TO THE GAZETTE.]

Beloit, June 8.—Pass on a working knowledge of the cold pack method to interested communities by means of public demonstrations.

This is the plan under which Rock county's juvenile food preservation forces have started their big drive on canning. Every hamlet or county that wishes to secure a public demonstration of the cold pack canning method, as advocated by the government experts may obtain the services of one of the thirty newly formed units, which Rock county has already organized.

Local committees wishing such demonstrations by these organized clubs must get in touch with L. A. Markham, county agricultural representative, or with Mrs. F. F. Gorham, county agricultural representative, or with Mrs. F. E. Gorham, Beloit, who has twenty clubs under her supervision in this city alone.

Mrs. Gorham announces that the leaders of Beloit's canning clubs will hold monthly sessions at Red Cross headquarters where seasonal activities will be planned for carrying out. Suggestions will be furnished by Miss Elizabeth Amer, state leader of Beloit's canning clubs, College of Agriculture, Madison.

The following points in Rock county have established canning clubs, and will demonstrate to other communities if desired: Footville, Magnolia, Fulton, Lima Center, Janesville, (county training school) Plymouth, Orfordville, and Rock Prairie.

Pittsburg, Pa., June 8.—Treatment of the families of soldiers was taken up today by the Committee of Social Problems of the War, at the forty-fourth national conference of Charity and Corrections. Routine business occupied the main body. Dr. Edward Devine of New York will lead the war problems debate tonight.

Burns' Best Poem.

It is said that a boy was once asked to the poet's presence which of Burns' works he liked best. After taking thought with himself for a little he declared that he liked the "Cotter's Saturday Night" by far the best, "although," he added, "it made me greet (cry) when my father bade me read it to my mother." This statement seemed to impress Burns, for presently he said to the lad, "Weel, my callant (boy), it made me greet, too, more than once when I was writing it by my father's fireside."

HOW OLD ARE YOU?

Never in the history of this country has this question been of such vital interest to so many people as it is today.

Never before has the United States government been so deeply interested in knowing the exact ages of the young men of the land.

So that never before has the public mind been so ready to grasp the great importance of complete birth registration.

In ordinary times as the years go by and problem after problem is taken up and settled our civilization grows; and the more rapidly these problems are taken up and settled the more rapidly this civilization grows.

In ordinary times the continual demands upon our attention first by one problem and then by another easily explain the temporary sidetracking in so many states of the problem of complete birth registration. It is not because the people believe birth registration unimportant, but the problem has simply been crowded to one side until a more favorable day.

When the story is told of the American arrested in London as a German spy, unable to obtain a birth certificate because his birth had never been recorded and because the doctor had died, but finally saved by the discovery of an old letter which told of his birth, the people grasp the point.

But as the story relates to somebody far away, somebody unknown, and probably never heard of before, the point is soon forgotten and no wave of strong public opinion is ever really started. So, too, the statements that birth records are needed to prove men of voting age, to establish the pensions and pensions for the children of soldiers, to determine how efficiently the states are protecting the health of the children, and to determine who is entitled to the protection of our flag—these statements are too apt to be treated as old axioms which call for no immediate reform.

The need for complete birth registration is recognized but the inertia of the people still prevails.

Thus in ordinary times the problems of civilization are settled slowly, but not so in time of war or after great catastrophes. Then the emergency or bitter experience brings quick results.

The city devastated by fire is so rebuilt as to guard against a second conflagration.

The terrible loss of life which follows an outbreaking of an epidemic steamers on results in more stringent laws and in greater safety for future travelers.

And today this war call for the registration of our young men brings home the need of birth records to every community and to almost every family in the United States.

EVERY LITTLE BIT.

Have you bought a Liberty bond yet? If not, why not? Do you not realize that by this means you can aid the federal government to arm and equip the army that has been called into being by the registration of the men of the land without excessive taxation? Do you not know that you can buy this so-called Liberty bond on the installment plan and do "your bit" and never miss it? If not, read what follows and see if it does not put a new aspect upon the whole situation.

Janesville has four local banks. Two are national, two are state. But it makes no difference. They are all united in aiding the national government. The men at the head of these institutions are willing to urge their depositors, even at the loss of their savings accounts, perhaps, to purchase Liberty bonds and they have made it possible for them to do so at a figure that works a hardship on no one unless it be the banks.

There are but a few days left to subscribe to these Liberty bonds—before June 15th—so that all that is to be accomplished must be finished before that time. Now is the time for action and the quicker it is accomplished the better it is for the government. A contract is available for each man to sign. Its phraseology is clear and concise. It tells the whole story in a nutshell and it places the bond within reach of every family.

It reads: "I have paid the sum of \$1.00 and agree to pay the sum of \$2.50 on or before the 1st and 15th of each month hereafter until December 15th, 1917, and on and after December 15th, 1917, (name of the bank) will this with agrees to surrender this contract and to deliver to me one fifty dollar (\$50.00) United States 3 1/2 per cent bond, bearing interest from December 15th, 1917, provided all payments are made as herein undertaken."

Here is a fair and square proposition which is the best of all. It means an initial payment of \$4.00 and a subsequent payment of seven dollars a month until the fifteenth of December. The interest of forty-three cents is counted in on the total. The actual amount paid in by the individual bond purchaser of a fifty dollar bond is \$49.57. In return he receives a bond for fifty dollars with payment deferred from the payment of his last subscription. Thus each man or woman, or young girl, or even parents for their children, can do their share and reap the benefit of the three and a half per cent interest, after December 15th, and more if the government issues more bonds for this purpose later, in excess of the present call at a higher rate of interest, which is more than the average savings accounts payments.

One other feature to be enumerated is the fact that if, during the period that the subscriber for the bond fails, through sickness or any other adversity, to pay for the bond on the regular payment, he or she does not lose the money paid in. On

or after December 15th this money paid in is refunded by the individual bank holding your contract at the total amount paid in minus any accrued interest.

The government does not ask for you to contribute your money; they ask you to loan it to them. One fifty dollar bond will equip a soldier for the war with uniform and guns and material. Be a patriot. You have nothing to lose. One five hundred dollar bond keeps a soldier for a year. Be a patriot. As has been said: "Better buy a Liberty bond now than pay tribute to Berlin later." Stop and think before you turn down the earnest and enthusiastic men who are behind this Liberty bond movement in Janesville. Buy a bond!

THE TAIL LIGHT.

The little red light at the rear of an automobile is called a tail light. It is of no earthly use except to light up the license number so that an offending driver can be apprehended. This is why the state demands it. No one was ever damaged or injured by running into the back end of an automobile. The front end of the car is the business end and the one that needs watching. If our over-zealous officers will forget the tail light and keep an eye open for drunk and reckless drivers, they will render more intelligent service. The tail light on many cars is an uncertain proposition. It is usually all right when the car starts out, but often goes out without notice and the driver never knows unless his attention is called to it. Having a man into court for that sort of an offense adds nothing to the hospitality of the city.

Well, Battle Creek, Mich., obtained the cantonment. Janesville made a good play for it and offered the government property worth \$200,000, well drained and admirably situated as regards hygienic conditions, railroad facilities, local morality and so forth, but evidently the Michigan city offered more inducements. Some cities offered free sites and four hundred thousand dollar bonuses. However, the Janesville residents were ready to make good their agreement if called upon. So much for trying.

The young man who comes to your door about now with these Russia leather covered boots for sale dirt cheap at \$27.50, should be taken gently but firmly by the hand, led out to the back yard, and introduced to the spade.

If anyone makes a little noise, it is disturbance of the peace and a court offense, but if he is merely a food speculator and nearly starves people to death and interferes with our winning the war, it is perfectly legal.

Of course with weather not exactly summer-like the "up river" cottages have not been populated. However there will be a rush when the time comes and when it does watch the old Rock swell up with pride.

This is a time when munitions are of vital importance and one of the most important kind consists of the pop bottles you lay in at the beginning of the game to throw at the umpire.

It takes quite an art to be a table restaurant waiter nowadays, and always manage to look in other directions when the non-tipping customers want something.

There is some satisfaction going out in an automobile ride on a stormy day when the streets are not full of kids trying to get run over.

It is believed that if Germany will kindly refrain from doing anything to us for a couple of years, we will be pretty well prepared for war.

The submarine campaign has reached a point where it can't be beaten merely by a lot of retired admirals sitting in swivel chairs.

The usual result of press-censorship is that the enemy knows everything while the home people know nothing.

Some people's idea of the way to support the home paper is to run to the next door neighbor's and borrow it.

GETS JUDGMENT FOR PENS LOST ON ROAD

Justice Kalvelage Holds Parker Pen Company Is Entitled to Recover From American Express.

In the suit for the value of fountain pens alleged to have been lost during the shipment, the Parker Pen company yesterday recovered judgment against the American Express company before Justice of the Peace Gardner Kalvelage in the sum of \$82.34 and costs, amounting in all to \$107.70.

The case involved the disappearance of four dozen fountain pens with ivory barrels and settings from a package shipped by the pen company last September to the University Pharmacy at Seattle. The ivory barrels and settings had a purple tint and for that reason were ordered in considerable quantity because their correspondence with the university colors made them desirable. Testimony at both ends of the route showed that the box was bound and sealed both on shipment and upon receipt and showed no marks of tampering and yet the pens to the value of \$82.34 were missing when the box was unpacked and the other pens in the shipment were just as shipped.

The deposition of the manager of the pharmacy, who unpacked the goods, was to the effect that the express company did not deliver the package to him personally, although addressed to the University Pharmacy, Inc. Under the circumstances the justice decided that the company was liable and that the loss occurred before the package was delivered to the customer. A. E. Matheson represented the plaintiff and M. O. Mount the defendant.

WOMAN, This WAR will Touch YOUR Home

Your home is certain to be touched by the war in which we are engaged. It may seem remote and impersonal to you now, but you must not permit this impression to so persist as to bring you bitter, life-long regrets which will cloud the rest of your days.

It is true that in the first call for men, the ages are confined to 21 to 30 inclusive. But we may find it necessary to put three million men or more in the field. Don't you know that in our Civil War, men of sixty and boys of sixteen fought shoulder to shoulder before the war was done? Don't you know that Sixty and Sixteen are fighting shoulder to shoulder today, in France?

Be very certain of one thing, this war will touch your home in some way, either through son, father, brother or someone very dear to you, before the war is done.

Is your husband past fifty? How long could he stand sleeping in the mud of a first line trench—standing ankle deep in the water of it—through a week of rain?

Is your brother or son under twenty? Have you seen him toss in fever or grasp in pneumonia?

How YOU Can HELP Ward Off DISASTER

It is vitally necessary that the Liberty Loan be fully subscribed immediately in order to equip our boys RIGHT. The Government has offered for sale two billions of bonds in denominations of \$50, \$100, \$500 and upwards. Your plain duty is to buy as many of these bonds as you can. They can be bought on the partial payment plan. The first payment need only be 2%, \$2 on a \$10 bond. Anyone with any pocket money or an allowance of any kind can find no excuse for not buying at least one \$50 bond. You can make the initial payment of \$2.00 if you please, and pay the rest out of your savings. You can buy a bond through your husband's boss by paying \$1 a week. You can go to your bank, to your husband's bank, or any bank, or your husband's employer and they will receive you not only cordially, but with all the respect and honor due to an American woman serving her country.

GOT DOG TAG YET? NEED NEW ONE NOW

City Clerk's Records Show Janesville Owners Lax to Extreme in Procuring Licenses.

A big percentage of Janesville canine population are running the streets without license or else owners, heeding the hue and cry in England for the extermination of the dog as a means of conservation of the nation's food supply, have brought the matter right home and have sent poor Fido to the happy hunting grounds.

Up to noon today but 122 dog licenses had been issued by City Clerk J. P. Hatzmarlund. This number represents but one-fifth of the total of dogs licensed last year. The demand for tags has been very slow. City officials are unable to determine whether the dogs are being killed off or whether owners are just inexcusably delinquent in the purchase of the permits to own a dog within the city.

All dogs should be licensed by this time. The 1916 tags were retired a week ago yesterday. Neither the city officials nor Chief of Police P. D. Chapman care for a repeat of the conditions of last year when it was necessary to haul a number of owners into court and fine them for not providing for their pets. Unless there is a big revival in the demand for tags this will again be necessary, it is said.

COMPANY M TO GIVE BENEFIT FOR FUND AT MYERS MONDAY

Expect Large Attendance at Company Benefit to Be Held at Myers on June 11th.

For the benefit of the boys of Company M, who expect to be mustered into federal service at Camp Douglas by the fifteenth of this month, a big benefit performance has been planned for next Monday evening, when a patriotic picture of exceptional interest will be shown at the Myers Theatre. The theatre itself has been donated to the company by Manager Bracy, and but little expense has been incurred in leasing the film; all the proceeds will go to the company, to increase their company fund.

The drama, "Defense or Tribute," is a most timely one and has been featured in many larger cities as one of the best war pictures developed. It will be shown, in addition to a very funny comedy, at both afternoon and evening performances. Tickets have been distributed among the members of the company, and a large advance sale is looked for. Robert Dickey will sing several numbers, and the Bower City Band will give a concert prior to the evening performance.

The money secured in this way will be used to supply the men with many of the little comforts of life not allowed in the regular government equipment of rations, and will go a long way toward breeding the contentment among the men which will insure Company M's maintaining its reputation as one of the crack young companies of the guard.

With the promotion of Harold Patton to the second lieutenantcy of the unit, the position of first sergeant was filled by Sergeant Wilbert Ryan, who has already assumed his new duties and this interesting event was considerably punctuated by the army band through the various drill movements. Corporal E. L. Korman was promoted to the sergeantcy, and by Ryan, E. Herant was made corporal, and his vacancy as a first class private was taken by E. L. Rutledge.

With the enlistment of Einar John-

son and Melvin Berger, both of Brooklyn, the enrollment of the company has been increased to 178, one more than the goal at which Captain Caldwell has been aiming for so long. Physical disability, however, has necessitated the discharge of two men, John Schumacher and Fred Sandstrom, but it is the hope of the captain to fill these vacancies at once. There are still a number of applications to be heard from, and in all probability Company M will leave for Camp Douglas with close to 180 men on their muster roll.

Whitewater News

Whitewater, June 8.—The funeral of W. H. J. Hewitt was held on Wednesday afternoon and conducted by Rev. C. J. Andrews. The deceased was born December 15, 1835, in England and came to Canada when a boy. He afterward lived in Connecticut and New York. Mr. Hewitt was married in 1858 and came to Whitewater that year. He was a contractor and builder and had drawn the plans for many local buildings. He is survived by his wife, one sister, Mrs. L. L. Starr of Chicago, and a nephew, Albert Green of Chicago, who was here when Mr. Hewitt passed away.

Mr. Robert Dickey of North Freedom, attended the commencement exercises at the normal this week. Mrs. A. McLernon was taken to Milwaukee last evening to Trinity hospital, where she will be operated on this morning.

Miss A. Gibson has gone to her home in Chicago.

A chimney fire Wednesday evening called the fire department to Arthur Graham's on Janesville street.

The Janesville baseball team plays the local team here Sunday. A big patriotic rally day will be held here on Saturday. The First Regimental band will furnish music throughout the day and for a dance at the armory in the evening. Public speaking will take place on the veranda of the Hotel Walworth at 2:30. The normal commencement exercises closed yesterday with the annual banquet and reunion in the afternoon. President Eaton of Beloit college gave an address to the graduates at the men's gymnasium in the morning.

News Notes from Movieland

BY DAISY DEAN

Sessue Hayakawa, the Japanese actor, who has starred in a number of successful pictures, adds another successful characterization to the already lengthy list which he has presented upon the screen when he plays the Mexican bandit in "The Jugglers of Fate," to be released soon. Hayakawa has been seen as a Japanese, a Chinese, a Hawaiian, an East Indian, and an American Indian in various Lasky pictures, but this is the first time that he has ever donned sombrero and chaps.

The story tells of a powerful Mexican bandit who terrorizes American oil men on the border. He is finally killed by a Mexican sweetheart as he is attempting to make advances to the fiancée of a young oil man whom he has captured.

WAR NURSE UNIFORMS POPULAR WITH STARS
Movie stars are rushing into war nurse uniforms as unanimously as they rushed into ragged trousers a few months ago.

These who are not to impersonate nurses will have roles which picture them in the midst of war time drama and heroism.

Mary Pickford is to impersonate an American girl in France in her next picture, "The Little American."

Capt. Ian Hay Belth, whose war books are in fashion, has been engaged for this production to advise director Cecil B. DeMille. This is to assure realism in the action and setting of scenes on the battle front.

Emily Stevens, who has just completed a stage engagement in John Galsworthy's play, "The Fugitive," is soon to begin work on an American war-time movie to be called "The Slacker."

A dozen other important movies are being photographed to show girl stars driving air planes and motor ambulances.

HELPING LIBERTY LOAN
The movies are doing their bit to make the Liberty Loan a success. There are approximately 15,000 movie

theaters in the country, and in each of these during the next two weeks at every performance there will be flashed on the screen the suggestion that everybody buy a bond. Slides and film trailers have been sent to every theater, and it is estimated that 15,000,000 people will thus be reached, so that is the number the movie men calculated attend their theaters every week. More and more the motion picture screen is being recognized as a medium of disseminating information.

Studio records were recently broken at the Metro studio when eighty people appeared in support of Viola Dana in "Aladdin's Other Lamp" worked continuously for nineteen hours without leaving the studio or changing from costumes to street clothes. Three meals, one of them served in the studio dining room, the other two served on the studio floor, were brought in from a nearby restaurant.

It took four months to film "One Hour," a forthcoming B. S. Moss six-reeler, founded on the asbestos story of the same name by Elmer Glyn.

SPRING IN SUNNY SOUTH COMES WITH TREMENDOUS ACTIVITY IN CANNING

Woman's Page. Spring in Sunny South. The following is a letter to a Janesville relative from Mrs. James M. Walker of Masoula, Miss., near New Orleans, indicates that spring is not backward in the south and that the H. C. of L. has been canned in the Walker household. "I have made sixty glasses of plum and blackberry jelly; six pints of strawberry preserves, six pints of plum preserves, three pints of blackberry jam and I have two saloons of blackberries coming tomorrow morning with which to make jam. In our garden we have all the potatoes we can use nearly all summer, plenty of pole beans, peas, etc., and we had a mess of English peas out of the garden yesterday. But they are about gone now; also squash, a few; plenty of tomatoes which will be ripe in a few days. I am going to can about twenty-five cans of tomatoes. The corn is beginning to bloom, so we will soon have corn on the cob for dinner."

SMALL SUPPLY OF BEANS AVAILABLE FOR SEED

A small supply of beans for planting is still available at the court house. P. Starr, corresponding secretary of the county defense council, announced today. As the time is getting late persons who intend to plant should phone their order to Mr. Starr at once.

The Daily Novelette

SAPHO.

"Mr. Endways," said Treat M. Ruff, manager for Cordelia Harberne, the world's most famous Sapho, "I would like to engage you as Miss Harberne's leading man in next year's tour of 'Sapho' at a salary of \$250 a week, with the use of Miss Harberne's cigarettes."

Overjoyed, Miss Harberne signed the contract. Seven months later, when he reported for the first rehearsal, Ruff hummed and hawed, and finally said, "Mr. Endways, I'm afraid I shall have to call that contract off. Unfortunately, through an incorrigible taste for country sausage sandwiches, Miss Harberne has gained seventy pounds in the past half year, and now tips the scales at 240 pounds. As you weigh only about 110, I should say that you can hardly manage to carry her up stairs in the great staircase scene six evenings and three matinees a week."

"A contract is a contract!" snapped Weedon Endways, and went through the rehearsal without no other damage than a few strained ligaments and a sprung vertebra.

At the first public performance he dropped Miss Harberne down four

steps and drove his foot through the scenery. At the second, he dropped Miss Harberne down seven steps and fell over into the orchestra pit, smashing a \$400 Swedish horn. By the third performance, Manager Ruff had arranged a pulley behind some sozzled bushes on the stage, hidden stage hands, hoisted Miss Harberne to the top while Endways merely clasped her to his narrow chest and went along, and the rafters rang to the thunderous applause.

REJECT CONFERENCE WAR REVENUE BILL

Washington, D. C., June 8.—The house rejected the conference report on the \$3,281,294,641 war budget bill because of a \$3,000,000 appropriation inserted by the senate for the purchase of the old Jamestown exposition site and buildings and the construction of a naval base and training station there.

Heart and Home Problems

BY ELIZABETH THOMPSON
LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: I am a young married woman and have two children. I am in need of advice and consolation and I have no one to turn to except you. To begin with I was a broken-hearted girl because a real decent man I loved, who said he loved me, gave me up. He ran away from me, and then I was put in a place. I was helpless and didn't have a brother, sister or cousin to turn to. My parents are foreigners and I don't understand them. The good boys kept away from me and I wouldn't go with the bad ones. For a year and a half I stood it, and then I went to a second place. I didn't like being there, but I was lonely. A one of these good boys came to me. He looked out of place there too. He had also heard stories about me, but he questioned me. I told him my story and he laughed and said he didn't believe I had been in love. I started to have some faith in him and we kept company. He never talked to me of love—we seemed such good friends. I never went near the first place or mentioned his name. I couldn't bear to have his name mentioned to me, because I thought I hated him. At that time the man didn't go with decent company and I was a disgrace.

After I was married things went very well until the first baby came. My husband had a quarrel over a trifle and he hit me. I noticed that he had a terrible look in his eyes and ground his teeth and got foam around his mouth. He has always had such terrible headaches ever since he was born and they always make him act that way. He beats the babies when they are in his way and he expresses a desire to go with indecent girls. He also favors double standards. Since I found out that he loses his attractions to immoral girls I have lost the feeling I had for him. I am glad that I know what he really is, but I worry about the children. I feel that I won't live with a man I don't love, but I don't believe in divorce.

Would you advise me to see about my husband's mental condition. I feel strong enough to endure any shock just now. I could earn my living. The first boy is married. My children are both tongue-tied and nervous.

UNHAPPY WIFE.
You will not be free from worry until you know the truth about your husband's condition. If the doctor advises that it is unsafe to live with your husband you should leave him even if you do not go as far as to divorce him. It seems almost unbelievable that a man could willfully ruin a girl's chances in life by slandering her. I have known of a few such cases before. A girl is so helpless in such a case unless she has the support of her family. You have certainly suffered, but you have made the best of it and with the spirit of a conqueror. Surely that thought must comfort you.

Dear Mrs. Thompson: I am a girl of eighteen. I was going with a young man in Canada for quite a long time. I loved him very much, but my love was not returned. Now I am in the United States and I want to know if I should write to him or not. He is very nice-looking. Or shall I write to the man in Canada and give him my love as I used to?

ALWAYS ASK THE DOCTOR.
You do not love either of the men deeply or you would not be so undecided about which one to choose. Keep both of them for friends and forget about love for awhile. You are too young to know your own mind. Write to the man in Canada, but don't do it with the idea that you are in love with him.

Dear Mrs. Thompson: (1) Is a boy of fifteen years old enough to go with a girl of thirteen in the day time?

(2) If a girl is angry at you, how can you tell?

SAMMY SUNSHINE.
(1) He is old enough to play tennis with her, walk with her or be with her on a purely friendly basis, but he is not old enough to consider her as his girl.

(2) If she is cool and avoids a conversation she is probably angry but I worry about the children. I or indifferent.

HEALTH TALKS
BY WILLIAM BRADY, M. D.
LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

HAY FEVER POLLENS.
Perhaps the most frequent cause of hay fever is weed pollen. Ragweed, of one variety or another, grows pretty much all over the country in vacant or uncultivated fields and by roadsides. The pollen is blown about by the wind. Often, however, the ragweed grows in your neighbor's neglected garden or the vacant lot across the street.

Witch-hazel is another frequent factor of hay fever. The pollen of this weed does not travel very far on the wind hence you must search for it near home.

Witch-hazel and poverty weed (marsh elder) are other plants which cause many cases of hay fever. Goldenrod, wormwood, sunflower and plantain are well known exhalants of attacks in certain persons. Timothy hay gets a lot of credit but is rarely a cause of the trouble. The pollens of all these plants scarcely travel on the wind at all—but must be inhaled almost directly into the nostrils. Other pollens which sometimes cause hay fever in persons who brush against the plants or handle them, are ragweed, rosin, wax, marshmallow, hickory, locust, thistle, dandelion, blackberry, Susan, shasta daisy and even sneezeweed.

This makes an interesting list for the prospective or actual hay fever sufferer to cull over and cogitate in his lucid intervals. From it he ought to select two or three suspicious characters and test them by seeking sanctuary under their shade when they are pollinating.

As long as fine, progressive cities don't care a penny about the weeds, ragweeds and byways and vacant lots, the hay fever of the population will have to shift and snivel for itself. Let each victim experiment and study until he is positive which particular pollen irritates his attacks. After that the treatment will be simple enough. From the pollen an extract may be prepared in the laboratory and the sufferer gradually immunized against hay fever by series of gradually increasing doses, hypodermically administered, by any doctor who has no other amusement pressing upon his time.

QUESTIONS AND ANSWERS.
The New Doctor Makes a Clean Sweep.

After fifteen years of inefficiency, pain in abdomen, dieting and dosing for "intestinal indigestion," I am informed by my new doctor that I have formed a stomach. It says into the X-ray shows the appendix is carried the transverse colon down with it. The X-ray also demonstrates adhesions about the appendix. See and examine the appendix. Doctor says stasis. I have never had appendicitis. Doctor urges immediate operation of adhesions and removal of appendix. Questions: (1) What is the chance for normal strength and health after such an operation? I am 33. (2) Should I submit to surgery, or try Dr. Brady's gymnastics first? (Mrs. W.)

Answer—If Dr. Brady had spent fifteen years working up a case of pious, sick, adhesions of cetera, he would not jump right on the table and take his ether just because the new doctor advised it. There is no assurance of cure from the operation, although it may be the very thing needed. It is at best a gamble in such a case as you describe. At any rate, postural treatment, abdominal breathing and massage, perhaps abdominal support, and a reasonable course of rest, might be worth while before undergoing operation. The X-ray is a useful aid in diagnosing, but in itself, I think, should never warrant operation. Many individuals have a stomach which sags into the pelvis, yet experience no ill effects. That condition is like eyes in even in weak individuals. Slight refractive errors may give rise to symptoms, whereas in stronger individuals no symptoms are felt from such defects of vision—indeed, practically all eyes show refractive error when tested.

Reading Makes Her Sleepy.
I am a stenographer, which you would probably deduce any way from my letter, and when I try to read at night I always get sleepy, though I can sew or write and remain wide awake. I sleep on a sleeping porch the year around, and get plenty of sleep at night. But I can't shake off this sleepiness which comes on when I read. Is it just a sign of "sluggishness" or does it indicate some other trouble? Answer—Well, it may depend on the kind of reading, or the size of the printed type. If, first, you can't stay awake reading "Personal Health," by our esteemed friend, Wm. Brady, M. D., it may be that eyestrain is the trouble.

Household Hints

MEATLESS RECIPES.
Baked Onions—The large Bermuda onions are best for this purpose. Remove the outer skin and boil onions in salt water and milk until tender. Place in baking pan with butter on top. Bake in oven until brown. Bake in the oven until brown.

Oyster Plant Fritters.—Scrape oyster plant, boil in salt water until very soft. Drain off water and mash with a fork. Add one beaten egg, one tablespoonful of butter, one tablespoonful of milk, one tablespoonful of flour, a pinch of salt and pepper. Grease frying pan and drop spoonfuls of batter in same pan in which it was baked.

Fried Eggplant.—Boil eggplant until tender, putting it on with cold water. Remove meat from shell, and add a pinch of salt and pepper, two tablespoonfuls of flour and two well-beaten eggs. Put a very little fat in the skillet and when hot drop in batter and brown on one side, then on the other. Serve hot.

Macaroni With Tomatoes.—Steam macaroni in boiling water until tender. Sauté one-half onion, one-half green pepper and one-half tomato, strain and season with one teaspoonful sugar, pinch of salt and pepper. When macaroni is done drain water off and mix with heaping tablespoonful of fresh butter, a little salt and pepper. Put a layer of macaroni in baking dish, a layer of tomatoes, a layer of macaroni, and so on. Bake in oven until brown on top and serve in same pan in which it was baked.

TIPS TO MAKE YOUR WORK EASIER.
Safety matches can be lighted by striking on common glass.

For a waterproof kitchen floor apply cold paraffin oil with a soft rag. It will dry instantly.

Often one wants to renew a prescription, so when pouring medicine out of a bottle pour from the side opposite to the label and the label will not be blurred.

When a tooth aches it is caused by acid penetrating a cavity. The pain may be relieved by rinsing the mouth with a little bicarbonate of soda and water.

No matter how careful one is when sewing, often an oil spot gets on a dress while making it. The machine has recently been oiled. If the fabric is silk cover it thickly with powdered starch and leave it for twenty-four hours. After the starch has been brushed off the stain will not be noticeable.

Match marks can be removed from paint by rubbing them with a cut lemon, then with whiting and then washing them with soap and water.

To destroy crickets, place cucumber peel on the floor at night, preferably near the hiding places.

CELERY AS A PURIFIER.
Those who suffer from rheumatism often find great relief by including celery in their diet, and this vegetable is also a good blood purifier, and therefore excellent for folk who are troubled with bad complexion.

Celery should be chosen with care when it is bought. Select well-blanching, finely ribbed stalks, with the outer stems tinged to a deep pink. The delicate central stems are generally eaten raw with salt, as an accompaniment to bread and cheese.

CHOCOLATE FROSTING.
One cupful granulated sugar, one cupful boiling water, six squares of white chocolate, one-half cupful vanilla extract. Melt the sugar in the boiling water, cover, and let boil three or four minutes; add the chocolate in broken pieces, and let melt over boiling water, then beat in the sugar, sifted, and the extract. Use sugar to make the frosting of a consistency to spread and not run from the cake.

YOU MIGHT TRY THIS.
To make two pounds of butter from one pound of butter and one pint of milk, heat the milk until it is lukewarm, and then pour it on the butter. Add a little salt to suit taste, beat with fork for about ten minutes and let cool. Coloring can be purchased at a drug store.

When a lady meets a gentleman she knows, it is her privilege and how first.

Verne: When your seats at the theatre were at the end of a row, next the wall, you should have asked the lady with you to allow you to step into the first row first so that you could take the less desirable seat against the wall. If the seats were equally good, of course there was no occasion for this. One must always use common sense in these matters.

EDITHA: You should always greet the members of your family with a pleasant "Good morning" just as you would a guest visiting in your home; also bid them all "Good night," whether a more demonstrative have taking is in vogue in your domestic circle or not.

Treat your own people with all the politeness you would show to an outsider; and perhaps you might add to courtesy a little show of affection unless your family are a stony hearted lot.

AGRICULTURAL and GARDEN DEP'T

ALLEN B. WEST, Director

Question: Is it too late to plant carrots, lettuce, beets and parsley?

Answer: It is not. The first three can be planted at intervals of two weeks all summer, if one wishes. The parsley is ready to use as soon as the leaves are large enough and will no doubt have ample time to develop after this.

Question: I have about decided to try gardening this season, but have no vacant land. Is it too late to secure a vacant lot? If not, could I plant it to advantage after this time? What would you advise me to put in at this time?

Answer: There are still some vacant lots to be procured for gardening. If you will call up the undersigned at the high school, he will confer with you about them. It is impossible to advise you what to plant without knowing more of your circumstances—whether you wish to grow vegetables for market or for home consumption. There is still ample time to grow beans of all kinds, string beans or kidney beans, cucumbers, melons and squashes. Tomatoes, cabbages, cauliflower and celery may be set out. Sweet corn may be planted up to July 1. Lettuce, radishes, beets, spinach, carrots and turnips may be sown. There is still ample time for planting late potatoes. If the season is favorable one might secure a lot unless he means business all summer. While the lots are free, it is expected that playing and fishing of the ground will be paid for by proceeds of the garden; so please do not ask to have the ground filled unless your enthusiasm for gardening will stand the test of hard work necessary to produce a crop. There is no fund provided for the fitting of the lots and no way of making up for any losses through failure on part of the gardener in making good. Another thing to be borne in mind is the obligation of the owner of the land to see that it is kept free from weeds and is at the end of the season in as good or better condition than when it was turned over for garden purposes.

ALLEN B. WEST.

To the minds of most people education and pleasure are mutually exclusive ideas.—Herbert Spencer.

Answer: Wrens are not especially particular about their nesting places. Almost any convenient cavity will do for them. However, if the entrance is large enough to admit the English sparrow or the blue bird, the place is likely to be tenanted before the wrens arrive, for they linger in the south much longer than the bluebird, and the sparrow is always with us. The rule for the entrance hole is that it shall be the size of a silver quarter. This will keep the other birds out; but it must not be smaller or the wrens cannot get in. Another requirement is that the box be provided with a little perch directly in front of the entrance. With so small a hole this is a necessary adjunct. The house or box should not be too fine or conspicuous, a modest unostentatious home being preferred. Even with all these requirements fulfilled you may wait some years for tenants. This was the writer's experience, but just year the house, which was a small point keg, suspended in a tree near the porch, was occupied, and the family enjoyed their musical neighbors all summer.

Notice. Those desiring vacant lots may communicate with the undersigned at the high school office. No one should engage a lot unless he means business all summer. While the lots are free, it is expected that playing and fishing of the ground will be paid for by proceeds of the garden; so please do not ask to have the ground filled unless your enthusiasm for gardening will stand the test of hard work necessary to produce a crop. There is no fund provided for the fitting of the lots and no way of making up for any losses through failure on part of the gardener in making good. Another thing to be borne in mind is the obligation of the owner of the land to see that it is kept free from weeds and is at the end of the season in as good or better condition than when it was turned over for garden purposes.

CENTER

Center, June 7.—Registration day passed very quietly, ninety-two mothers' sons signing the honor roll as first steps in pledging their services for war. Let us hope it will never be necessary for them to join for actual service.

The cold rains and cloudy skies still continue, much to the discouragement of the farmer. Some have had to replant their corn. A farmer near Beloit planted ten acres of potatoes, which all rotted in the field.

C. E. Ferguson, wife and son, Calvin, of Beloit, were calling on friends in Center and Footville, Sunday afternoon.

Word reaches us of the serious illness of the little son of Mr. and Mrs. James Adde of Ralls, Texas. Their many friends in this, their former home, hope for his recovery.

Will Dixon and a party of three other gentlemen from Janesville, left for Flint, Mich., Sunday evening, where they went to drive back automobiles for the Nitscher Implement company of Janesville. They reached home Wednesday evening.

Mrs. Wall Satz and children are spending several days at the home of her sister, Mrs. Ernest Demrow, in Hanover.

Mrs. Vera Fuller Gransee and children, Delton and Audrey, of Beloit, spent the day Monday at the home of her mother.

Mrs. Minnie of Janesville visited Monday and Tuesday at the home of Mrs. Will Dixon.

School closed in Dist. No. 2 last Friday. The teacher, Miss Mary McWilliams, returned to her home in Milwaukee, Saturday.

Mrs. Mae Fuller returned Wednesday evening from a brief visit in Beloit.

John Weisenberg is very seriously ill with typhoid fever, following a severe attack of grippe. A trained nurse is in attendance. His many friends hope for a speedy recovery.

C. F. Mathias of Beloit was a visitor here the fore part of the week. Sunday afternoon, June 3, occurred the marriage of Charles Harnack and Miss Clara Fenrich, both of the town of Center. The ceremony took place at the home of the bride, Mr. and Mrs. William Fenrich. Congratulations are in order.

A bold wolf from the north woods is visiting the barnyards of Seth Crall and Will Dixon and making his meals on select lamb. Both parties have lost several lambs.

CAINVILLE CENTER

Cainville, Center, June 7.—The pupils and teacher, Miss Nellie Gardener, of the Cainville school, closed a successful year's work on Wednesday. On account of the inclemency of the weather they held their picnic in Warren Andrew's tenant house in spite of the rain about fifty enjoyed the festivities of the day.

Two pupils, Evelyn and Donald Fraser, were awarded prizes for being neither absent nor tardy for the entire year and Marion Andrew for not being absent for the year. Those receiving certificates for perfect attendance for six months were, Evelyn Fraser, Donald Fraser, Owen Fraser, Marion Andrew, Raymond Andrew, Harriet Andrew, William Klumeyer, Leonard Woodstock, Helen Casey and Mabel Casey.

The announcement was also made that Justin Casey had completed his eighth grade work and would receive his diploma at the graduation exercises in Janesville. The pupils presented a beautiful silver spoon to Miss Gardner who has been engaged to teach the school for next year which will be her third year in this school.

Edward Martin, who has been working for the Cow Testing association has accepted a government position in Nebraska. The work here will be continued by another man.

The Russian that worked for Mr. Klumeyer had his trial Wednesday morning and was given one year in the penitentiary for his pilfering.

Dave Andrew is working for the condenser. He goes down on the afternoon train and back at seven.

The Helpers' Union will be held today with Mrs. Cliff Cortrite.

Miss Nina Worthing closed a very

successful year teaching last Friday in the red brick school, east of Footville.
